502 Minical automatic air vent

502030/40

502130/40

502050/60

Application

The Altecnic series 502 automatic air vents are used in heating and air conditioning systems to continually remove air from the system without the need for manual adjustment.

Excessive air within a system can cause excessive noise, reduce the accuracy of control valves and the performance of heating and cooling equipment.

One of the most important functions of the Altecnic automatic air vents is to release air as the system is being filled with water and then automatically isolating, preventing water loss and wastage from the system.

Materials

Components	Material	Specification
Body	Brass	BS EN 12165 CW617N
Cover	Brass	BS EN 12165 CW617N
Float	Polymer	Polypropylene
Spring	Stainless steel	
'O' rings	Elastomer	EPDM
Check valve seals	PTFE	

Technical Data

Medium:	water, glycol solution
Max. percentage of glycol:	30%
Temperature range:	0 to 120°C
Max. working pressure:	10 bar
WRAS approved products	

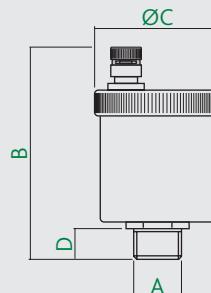

Product Ref	Size	Connection	Max Venting Pressure	Type - with	Pressure
502030	3/8"	male screwed	2.5 bar		
502130	3/8"	male screwed	2.5 bar	check valve	
502040	1/2"	male screwed	2.5 bar		
502140	1/2"	male screwed	2.5 bar	check valve	
502050	3/4"	male screwed	2.5 bar	hydroscopic cap	
502060	1"	male screwed	2.5 bar	hydroscopic cap	

Hydroscopic Cap

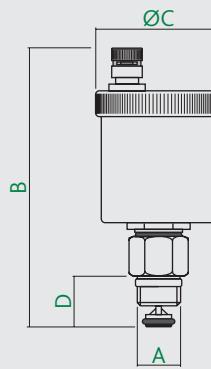

All Minical automatic air vents can be supplied with a hydroscopic safety cap.

Its function is based on the properties of the cellulose fibre disc who's volume increases by 50% as soon as it becomes wet, causing the valve to close avoiding possible leakage.
